C1.Presence of candidate substances to be banned in the product

Please reply the content status of "Candidate substances to be banned" in the table below.

Explanation of "Candidate substances to be banned":

Sharp's "Candidate substances to be banned", so please promote substitution.

- •Substances that are expected to be banned in the near future under domestic and foreign laws and regulations.
- •Since the threshold value, prohibited date, regulated use (excluded use), etc. have not been determined in the laws and regulations, it cannot be specified as Sharp's "Candidate substances to be banned" at this time.
 - but in the future based on the trends of laws and regulations, etc. Specify for Sharp's "Candidate substances to be banned".
- •Depending on the timing when laws and regulations are finalized, it may not be possible to set a grace period from the designation as Sharp's "Banned substances" to the delivery prohibition date, so if it is contained, please proceed with the substitution as soon as possible.

A2-Appendix

Regarding items whose confirmatory result are "Not Applicable" in clause A2, "X" are marked in the result column based on the criteria in accordance with "The SHARP's policy of delivery dates to SHARP and EU RoHS exemption's due date".

The SHARP's policy of delivery dates to SHARP and EU RoHS exemption's due date.

- 1) In principle, SHARP set up delivery prohibition date to SHARP as "six month" before the due date of EU RoHS exemption. Example) If the deadline of RoHS Exemption is "21 July 2021," the delivery prohibition date to SHARP is "21 Jan. 2021".

 2) If the deadline of RoHS Exemption is changed after issuance of this report, in principle, the delivery prohibition date to SHARP will be six months before the changed deadline.

 3) It is based on information on the exemption deadline of the EU RoHS Directive at the time of issuance of this report (Oct. 2023).
